THE steamer Oregon of the Cunard line has just crossed the Atlantic ocean in 6 days, 6 hours and 25 minutes. This beats her fastest previous trips, which have been the quickest both ways, the best heretofore being 6 days, 10 hours, 4 minutes, made last August.

In our account of the calamity to the Wieland family of San Francisco, yesterday, it was stated that the children's injuries, were not dangerous. On the contrary, Bertha died shortly after her father and was buried with him. The error occurred through overlooking some of the reports in San Francisco papers in hurriedly writing our item.

MR. Archibald Gilfillan has just made a quick trip to Spreckelsville and back. He went to fetch Mr. George C. Williams, and for that purpose left by the W. G. LEONG Ming, the Chinese school teacher who was recently sent over the reef for thrashing his pupils, brought an action against one of the parents this morning for breach of contract. This morning about 9 o'clock, as Mrs. Fernandez was driving along King street, with children in the carriage, when near Waller's butcher store, one of Waller's heavy meat wagons, driven by a Chinaman, backed into the carriage, fortunately without doing damage. If the carriage had been a lighter one it would undoubtedly have been turned over. The horse attached to the meat wagon is a baulky one, and is not improved any by being driven by a Chinaman. Mr. Waller should not allow such an animal to be used.

An ingenious invention has been made by Mr. Jas. G. Clevior, manager of this office, in the shape of an indicator for cylinder presses. A working model of the machine, made with a jack-knife by the inventor, is

attached to the press that prints the BULLETIN. It works satisfactorily, recording every paper printed on a dial, and counting the hundreds by a revolving disc showing the number through an aperture above the dial. This indicator is of simple mechanism and is capable of being applied to any machine press.
